PROFESSIONAL SUMMARY

Results-driven Junior Software Developer with hands-on experience designing and delivering full-stack web and mobile applications using Java, Python, JavaScript, React Native, and Node.js. Proven ability to integrate AI-powered features including intelligent assistants, image analysis, and data-driven insights into production-grade applications. Recognized as Best Overall Intern at ICEP and certified in Frontend Development. Comfortable in Agile, cross-functional teams with a strong foundation in REST APIs, cloud platforms (AWS, Render), and DevOps practices. Committed to writing clean, maintainable code that solves real-world problems.

TECHNICAL SKILLS

Languages	Java · Python · JavaScript · TypeScript · Node.js
Frontend & Mobile	React · React Native · HTML5 · CSS3 · Expo Go · Tailwind CSS
Backend & APIs	RESTful APIs · Flask · MVC Architecture · OOP · Express.js
Databases	PostgreSQL · MySQL · MongoDB · Firebase
Cloud & DevOps	AWS · Docker · Render · Railway
Tools & Version Control	Git · GitHub · VS Code · NetBeans
QA & Testing	Manual Testing · Unit Testing · Debugging · Test Case Design · Thunder Client (API Testing) · Code Review
Other	AI/LLM Integration (Groq API) · Agile/Scrum · System Architecture & Diagramming

SOFT SKILLS

- Strong problem-solving & analytical thinking
- Team collaboration in Agile environments
- Time management & accountability
- Effective communication & presentation
- Adaptability & fast learner
- Proactive, solution-oriented mindset

EXPERIENCE

Junior Software Developer Intern | ICEP

Jul 2025 – Dec 2025

- Developed and shipped full-stack web and mobile features using React, React Native, and Node.js in an Agile team environment.
- Designed system architecture and technical diagrams to guide development and communicate solutions to stakeholders.
- Delivered production-ready features under tight deadlines; consistently incorporated feedback through iterative development cycles.
- Mentored peers and participated in hackathons, demonstrating both technical depth and collaborative leadership.

- Awarded Best Overall Intern out of the cohort; completed Front End Development certification during the programme.

Packer | Makro (Warehouse Operations)

Oct 2022 – Jan 2023

- Processed and packed high volumes of customer orders using warehouse scanning systems with a focus on accuracy and speed.
- Maintained consistent performance across night shifts in a high-pressure, deadline-driven environment — building strong work ethic and attention to detail.

PROJECTS

Medication Tracker — AI-Powered Health Assistant

A production-deployed, full-stack web application for managing medication schedules and improving patient adherence through AI-driven insights.

- Implemented secure JWT authentication and full CRUD functionality for medication management.
- Built an adherence tracking dashboard with scheduling, reminders, and exportable reports (CSV/PDF).
- Integrated AI capabilities via Groq API: symptom checker, medical image analysis, and a conversational health assistant.
- Delivered a responsive, dark-mode-enabled UI using Tailwind CSS; deployed on Railway and Render.

Stack: Python · Flask · PostgreSQL · Groq API · Tailwind CSS · JavaScript  [medication-app2](https://github.com/medication-app2)  medication-app2.onrender.com

Library Hub — Digital Library Management System

A full-featured library management platform enabling real-time catalog management with a fair reservation and notification system.

- Enabled librarians to add, update, and remove books in real time with immediate catalog visibility for users.
- Implemented a book reservation queue with automated notifications when reserved titles become available.

Stack: Java · PostgreSQL · HTML · CSS · JavaScript

EDUCATION

Diploma in Computer Science

2023 – 2025

Tshwane University of Technology (TUT)

- Graduated with a consistent average of 60%+.

National Senior Certificate (Grade 12)

2021

Kwena Molapo Comprehensive Farm High School

CERTIFICATIONS

- **Responsive Web Design** — freeCodeCamp
- **JavaScript Algorithms & Data Structures** — freeCodeCamp
- **Front End Development Libraries** — freeCodeCamp
- **Relational Database (SQL)** — freeCodeCamp
- **Back End Development & APIs** — freeCodeCamp
- **SQL** — HackerRank
- **React** — HackerRank
- **Java** — HackerRank
